

QUICK RULES

THE SET-UP

- All players, decide what color you want to be. Then take one Hilarious Card, one Score Card Holder, and one Colored Chip of that color.
- Without looking at them, place as many Dilemma Cards as there are players, face down in a stack in the center of the board. *Exception: With a 3-player game, place 6 Dilemma Cards.* Put the rest back in the game box.
- Deal 10 Reaction Cards face down to each player. Players may look at their own cards.
- Choose the first DILEMMA DAME, she gets the Blue numbered Chips. Rotate the board to face her.

PLAYING A DILEMMA - Play moves to the left.

- 1 DILEMMA DAME:** Read top Dilemma Card out loud. Place back on stack face up.
- 2 OTHER PLAYERS:** Give her 2 Reaction Cards from your hand, face down.
Exceptions: 3-player game give 3 cards; 7 or 8-player game, give 1 card.
- 3 DILEMMA DAME:** Shuffle cards given, reread the Dilemma, then read Reactions out loud as you put them on the board face up.
- 4 ALL PLAYERS:** Place your Hilarious Card on the edge of any Reaction Card that made you laugh out loud, OR wait to play it during a different Dilemma.
- 5 DILEMMA DAME:** Secretly choose which Reaction on the board you would actually do and place the corresponding Blue numbered Chip face down on board.
- 6 OTHER PLAYERS:** Take turns guessing which card she chose, by placing your Colored Chip on that card and explain your guess. (Start with player *left* of Dilemma Dame.)
- 7 DILEMMA DAME:** Flip your Blue Chip over to reveal, then explain your answer.
- 8 OTHER PLAYERS: TO SCORE...**
Take the Dilemma Card if you gave the answer to the Dilemma (worth **1** pt)
Take all Hilarious Cards that were placed on a Reaction Card you gave (each **2** pts)
Take ANY used Reaction Card if your guess was correct (worth **3** pt)
Tuck any cards you win into your Score Card Holder.

GET READY FOR NEXT DILEMMA

- 9 ALL PLAYERS:** Take back your Chips. Discard any Reaction Cards left on the board.
- 10 OTHER PLAYERS:** Draw Reaction Cards to replace ones you gave, so you have 10.
- 11 DILEMMA DAME:** Pass the Blue Chips to the new Dilemma Dame on your left.

WINNING THE GAME

- 12** After the last Dilemma has been played, count up your points. Subtract 4 pts if you didn't use your Hilarious Card. The player with the most points is THE DAME WINNER!
